Continuation Sheet (PTOL-413)

Application No. 10/681,352

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: A general discussion of the nature of the patent application was discussed and the direction that Applicants would like to take in the future. Mr. Gill indicated that a continuation of this case would likely be the next step rather than filing an RCE. An overall synopsis of the invention at hand was given by Mr. Gill and propositions for a newly drafted claim was recited. Examiner's Weber and Noakes suggested limitations in the new claims which might aid in avoiding enablement and written description difficulties in the future.
